WHAT ARE SIDE CAKES?

Side cakes are an affordable way to increase your serving sizes. They are a great way to provide a gluten free option or different flavors. Side cakes should be ordered in the sizes listed above, one flavor per cake. They are frosted and decorated with a border and are typically not displayed with the main cake and are usually served from the kitchen. If customization is desired, additional charges may apply.

WHAT IF I WANT NON-EDIBLE ELEMENTS ADDED TO MY CAKE?

Real Flowers - I suggest talking to your florist first. Some flowers need special care and they are the experts.

Fake Flowers - I am happy to apply fake flowers. This must be communicated ahead of time and additional charges may apply.

Cake Toppers - The bride and groom are responsible for providing and placing cake toppers. If you need assistance in placing the topper, this must be discussed and agreed upon in advance. Some toppers require planning due to size and weight. If I am concerned about the stability of your topper I reserve the right to refuse placement at the time of delivery.

FIRST ANNIVERSARY CAKE

Being so grateful for your business I would like to gift you a topper size, 6" cake, just for the two of you! Enjoy your delicious wedding cake all over again as you celebrate your First Anniversary! Cakes will come in a separate box. It is recommended to remove the cake from the box and freeze it in a freezer safe plastic container. Thaw cake in the refrigerator or on the counter before serving.
